

DOUBLE DIAMOND FARM

2012 Breeding Shed Requirements

Per the Stud Fee Contract, the following is being provided for your information. It is **IMPERATIVE** that the information below be sent to the person responsible for your mare during the breeding season. This will assist in avoidance of delay in booking your mare for breeding. Your cooperation in following our guidelines is appreciated. We look forward to a mutually successful breeding season!!!

- All maiden mares and mares that did not produce a live foal in 2012 **MUST** have a certificate proving a negative uterine culture, signed by a Licensed Veterinarian, taken no more than 60 days prior to breeding.
- All mares returning for breeding after the 2nd heat cycle will need to have a new culture.
- Negative Culture Certificates must be in the possession of Double Diamond Farm before the mare will be covered. They may be faxed to (352) 237-6069.
- Your completed, signed contract and completed mare information sheet must also be on file!
Please do not wait until the mare is at the shed!

- NO foals may accompany the mare to the breeding shed. If the foal is shipped with the mare it must remain in the van, parked away from the shed.
- NO PERSON LESS THAN 18 YEARS OF AGE is allowed in or near the shed during breeding sessions

- Mares are to have proper identification in place, to wit: Halter ID or Neck Strap with the MARE NAME. **PLEASE NO EXCEPTIONS!!!!**
- It is solely the responsibility of the owner to insure the correct mare is presented for breeding.
- Mares should be groomed before arriving.

- We reserve the right to require a negative C.E.M. culture and/or an E.V.A. blood titer, and to turn away any mare on which we feel there may be questionable circumstances.
- We also reserve the right to turn away any mare in the interest of the health and safety of our Stallions and Employees.

-All Maiden mares must be jumped prior to arrival.

Please let us know well in advance if you have been unable to do so. Again, we reserve the right to turn away any mare we believe could be a risk to our Stallions or our Employees.
